Diamonds

Exclusively at Sears

If she's been dreaming of diamonds, give her a gift that will please both of you. Registered Quality Diamonds allow you to confidently choose the size and quality solitaire diamond you want, knowing you have the Sears name behind you.

4C

Using laser technology, these Registered Quality Diamonds have a registration number inscribed on them which is invisible to the naked eye—you need a jeweler's loupe to see it. A copy of this number as well as a description of the diamond is kept on file at Sears and a copy is included with your diamond. It is your assurance that this diamond is yours alone... invaluable as a means of identification should the need arise.

The 4C characteristics determine the quality of every diamond.

Cut: When properly cut, the facets of a diamond allow light passing through to be reflected with maximum brilliance.

Color: The less color in a diamond, the more valuable it is.

Clarity: The fewer the imperfections within the diamond, the clearer and therefore more brilliant it is.

Carat weight: Diamond size is measured by carat weight. Diamonds less than 1 carat are measured in points. 100 points equal 1 carat.

Registered Quality Diamonds

These beautiful solitaire diamonds make diamond buying the pleasurable experience it was meant to be. You already know how much you can afford to spend and we offer diamonds in three qualities . . . one is probably right in your price range. And no matter what you spend, with all Sears Registered Quality Diamonds you get 14K gold diamond settings with a limited lifetime warranty (see below) and diamonds with a laser inscribed registration number (see facing page). So, read all about the 4C's of diamond buying on the facing page, select from the charts below, and watch the sparkle in her eyes when you present her with the diamond she's been waiting for. Please allow a minimum of 10 days for delivery. Shpg. wt. 1 oz.

FIT FACTS FOR BOOTS. All boots (including nylon) are sized to be worn with lightweight stockings, so if you'll be wearing heavy socks, order ½ size larger. Leather or urethane boots may feel snug at the instep at first. There may also be some heel slippage. This is normal; boots have to be broken in gradually. Putting your boots on will be easier if you apply a light coat of talcum powder on the instep and pull firmly on the top of the boot. After a few wearings, boots will conform to the shape of your foot for a comfortable fit.

The charges you will have to pay for shipping and handling will differ depending on the method of shipment. HOME DELIVERY MAILABLE ORDERS

Use home delivery, save a trip. For no more than 75¢ over store pickup, we'll send any mailable order of up to 25 pounds direct to your home, office or anywhere else you request in the continental U.S. Just say "Charge It." On Credit orders, Sears computes delivery charges and adds them to your account. Or if you prefer, you may pay in advance with check or money order (include shipping and handling charges plus tax based on item's destination). No C.O.D. Deliveries can be made to your home by the United States Postal Service (USPS) or United Parcel Service (UPS).

Use the rate table below for all merchandise except items with catalog numbers having an "N" at the end (see "Unmailable Merchandise" below). To determine home delivery shipping and handling charges for USPS/UPS parcels, first find your zone in the table below. (If in doubt as to your zone, see Big Book or ask at your local selling unit.) Next, add the weights of all items (except "N" suffix) and find the charge for the total in the table below for your zone.

Contact your local Sears selling unit for charges.

REGARDING OUR CATALOG PRICES

Following the policy in effect since our founding in 1886, prices quoted in Sears catalogs do not include (unless stated otherwise) charges for handling and shipping of goods from our Catalog Merchandise Distribution Center to a Sears catalog selling unit for pick-up, or for redelivery to your home. The shipping and handling charges may differ depending on method of shipping. Information on how shipping weights are determined and details on shipping and handling charges for shipping by USPS/UPS or non-Sears truck can be obtained from the customer information pages of our Big Book. Specific details on charges for handling and shipping to a Sears catalog selling unit for pickup or redelivery (if available) can be obtained from the unit, either at the counter or over the phone.

Comparative pricing statements made in this catalog refer only to prices on merchandise offered nationwide through our own catalogs. Catalog merchandise prices and assortments may vary from those in our Retail Stores and between regional editions of a catalog. If an item description in this catalog does not include our "was" price or any other basis for savings, that item is offered at our regular low price. Your order will always be filled at Sears lowest current price. If the products you order from our catalogs happen to be on sale in a current book, we will fill your order at the reduced sale book prices—automatically.

Toys n Kids: Helpful hints about buying toys

When selecting toys, first think about the child's individual likes and dislikes. Think about the toys she or he already enjoys and the abilities this child demonstrates or may need to improve. Note the age recommendations that accompany the listings for most toys in this catalog, but keep in mind that each child is unique. Try to choose toys that will provide the child with a challenge as well as a sense of accomplishment or gratification.

Above all, consider safety! Think of the home environment and other, possibly younger, children who may be present. A plaything intended for an older child may be unsuitable and potentially dangerous in the hands of a younger sibling. And remember, there is no substitute for responsible adult supervision.

Infants and toddlers

newborn to 3 years

Brightly colored, lightweight toys such as crib mobiles or blocks, stuffed animals and stacking toys help infants respond to stimuli, develop motor skills and explore their environment. As babies begin to crawl and walk, small wagons or push/pull toys are helpful.

Toddlers need lots of active play. Larger wagons or ride-on toys help them develop balance, while building blocks, make-believe appliances, simple books and puzzles help toddlers form other skills.

Pre-schoolers, ages 3 to 6 years

During this period, "make-believe" dominates play as children become increasingly independent. Toys that help them in their pretend world, such as dolls, doll furniture, a play telephone or cash register, are fascinating to these youngsters.

Outdoor gym equipment, pedal cars, two-wheel beginners' bikes with training wheels are appropriate for this age group. For indoor play, choose picture books, coloring sets, puppets, costumes, toy villages and forts, records or toy instruments. Transportation toys, such as toy cars and trucks, are appropriate favorites, too.

Young school-age children, ages 6 to 9 years

Group play is highly evident at this age, although children continue to become more independent. They enjoy practicing in-school activities with toys like electronic learning games, playing alone or with others. Board games and word games teach reading skills and social skills, like following certain rules.

Fashion dolls and action figures inspire imaginative play, while hobby and craft sets encourage probing minds. For physical activities, larger bicycles and other sports equipment are good choices.

Older school-age children, ages 9 to 12 years

Youngsters at this age develop specific skills and the ability to analyze situations. Advanced science, art, hobby kits help them explore their personal interests, while electronic games and advanced board games further develop skills plus the ability to plan ahead.

Children begin to feel "grown-up" at this time and physical activity centers around team sports. They enjoy records and phonographs and learning to play beginners' musical instruments. Dramatic play, such as planning complete costume productions, has great appeal as well.

All Toys n Kids information was gathered from THE ABC'S OF TOYS & PLAY, published by Toy Manufacturers of America, Inc.

SEARSCHARGE MONTHLY PAYMENTS

If you have an existing SearsCharge account balance, the addition of this purchase may or may not change your current monthly payment depending upon the highest balance of your account. Sales tax, delivery or installation charges, if any, may cause quoted minimum monthly payments to be higher.

SHIP-A-GIFT

How to buy a present, wrap it for shipping, and send it across the country (often for less than you'd pay to ship it yourself)—all in just minutes—with just one phone call.

Avoid the bother of sending packages yourself. When ordering a present for an out-of-town relative or friend, just tell the phone order clerk the name and address of the recipient. That's all there is to it. There's no need to pick up a package, wrap it for shipping and make a special trip to the post office because Sears will take care of it for you. Plus your gift will be shipped from our distribution center that's nearest its destination, so you never pay more for delivery than the recipient would pay if they ordered the same item for themselves.

Charge it: Pay for the gift with your Sears credit card. Or if ordering in person, you may wish to pay cash in advance. Sorry, no C.O.D.'s. Tax is based on the item's destination.

Choice of delivery or pickup: If requested, your gift can be sent for pickup to any of our more than 3000 Sears locations in the United States. Sears will notify the recipient.

Christmas delivery: So that gifts shipped within the U.S.A. will be received before Christmas, order before Dec. 12, 1985. Sears will also ship your gifts to foreign countries or APO-FPO addresses. Allow 30 to 60 days. Call any Sears selling unit for details or write in any language to Sears Personal Service, Dept. 157 at addresses shown on page 335.

The perfect gift when you don't know what to give

Sometimes the "just right" gift is the one they choose themselves. A Sears gift certificate lets the recipient choose from over 100,000 items, and it's redeemable at every one of our more than 3000 locations, catalog and retail. Choose any denomination from \$5 to \$250 and we'll send it to you so you can give it personally. Or if you prefer, we'll send a gift certificate directly to the recipient in your name.

Gift Certificate..... sent to you
12 XC 7440 State \$5 to \$250

Gift Certificate..... sent to recipient

Makes a perfect bonus or incentive award for businesses, too! Your business can buy Sears Merchandise Gift Certificates with your company check or you can buy them on credit by completing a request for credit approval that we'll send you when you write to the address below. Terms are net 30 days. The certificates will be mailed to you via registered mail. You will be invoiced for full face value.

An ideal comrade in the weight control war, the Sunbeam® Motivator™ talking scale helps you fight the battle of the bulge

1. Can we talk? Everyone needs a little help losing weight. This scale combines the latest computer technology, the most accurate design and a synthesized voice that gives 150 motivating and instructive weight loss messages for that extra encouragement and praise we all sometimes need. It stores the weight history of up to 5 people, and depending on their progress, responds to each one individually with messages like: "Congratulations! I am pleased. You are making progress" or "Beware! It is time for you to start waist-watching." It also provides informative weight-loss tips like: "Today, practice taking more time to chew each mouthful" or "Today, practice taking smaller bites." There's a different message each time it's used. The doctor-programmed Motivator™ is so advanced, it can automatically calculate your ideal weight. Just enter present and target weights, or let the Motivator™ select it based on your age, sex, height and body frame. Each day it records your weight and informs you of your progress. With automatic zero, no manual adjustment is required. Strain-gauge electronic mechanism has 325-lb. (148-kg.) capacity (0.5 lbs., 0.2 kgs. increments). Digital readout. Rubber-matted base is 12 1/4 x 12 x 2 1/4 in. high; 38 1/2 in. tall. Rubber "feet" protect floor. Requires one 9-v. and 4 "C" alkaline batteries, not incl., sold on page 459. AC adaptor included.
